

PRATHAM SALI

Software Engineer

Surat, Gujarat | prathamsali123@gmail.com | +91 6352547022 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Web developer with hands-on full-stack experience gained through internships and work, with a strong foundation in Java, C#, JavaScript, TypeScript, and modern frameworks like ReactJS, Next.js, and Node.js. Skilled in building responsive frontends and REST APIs, with exposure to live production projects. Seeking an opportunity at a forward-thinking organization to grow as a developer and contribute to real-world web solutions.

TECHNICAL SKILLS

Languages: Java, C#, Node.js, JavaScript, TypeScript, HTML, CSS

Frameworks: Spring Boot, ReactJS, Next.js, .NET Core, ExpressJS

Architecture: Event-Driven Architecture, MVC

Databases: MySQL, MongoDB, Redis, Oracle

Tools & Platforms: GitHub, Docker, VS Code, NetBeans, MySQL Workbench, Postman

Concepts: REST API Development, WebSocket, Webhooks, Payment Gateway Integration (Stripe, Razorpay), Application Deployment & Hosting, Version Control, Containerization

AI Tools: Antigravity, Cursor, Claude Code, Kiro, Codex, GitHub Copilot

Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management, Adaptability

WORK EXPERIENCE

Elaunch Solutions Pvt. Ltd.

January 2026 – July 2026 | Surat, Gujarat

- Built full-stack features on live projects, delivering frontend interfaces with Next.js and backend APIs with Node.js.
- Designed and delivered REST APIs for core application features, including profile and task management modules.
- Validated API functionality through consistent manual testing in Postman, identifying and resolving bugs early to ensure reliable releases.
- Worked with MongoDB and Redis for data storage and caching to support application performance.

NJ India

June 2023 – June 2024 (1 Year) | Surat, Gujarat

- Completed hands-on work experience in Java-based backend development under the STEP program.
- Developed a backend API using Advanced Java for handling customer queries, tested using Postman.
- Gained exposure to real-world development practices and coding standards under the guidance of senior developers.

PROJECTS

- Maham** — Worked on both frontend and backend. Built the frontend using Next.js and developed backend APIs for guard profile update requests and the associated task module. Technologies: Next.js (Frontend), Node.js, MongoDB, Redis (Backend), Postman.
- MFTran** — Worked on backend and created APIs for customer query handling. Technologies: Advanced Java, Postman.
- Inventory Management System (Strata)** — Developed an inventory management system that tracks item location via QR code scanning, built around a pay-per-grow pricing approach. Technologies: Node.js, Express, React, TypeScript (Frontend & Backend), MongoDB.
- Ecommerce (GoWear)** — Built a full-stack ecommerce platform for selling clothes for kids, men, and women. Technologies: MERN Stack (MongoDB, Express, React, Node.js).
- College Management System (CampusWave)** — Designed and implemented a full-stack system for managing departments, semesters, subjects, students, faculty, fees, exams, and notifications. Technologies: .NET Core, C#, ReactJS. Tools: SQL Server Management Studio, Razorpay Integration.
- Human Resource Management System (Working Wave)** — Developed a centralized system for managing employee data, attendance, leaves, meeting scheduling, and recruitment. Technologies: Java EE, MySQL. Tools: MySQL Workbench, Payara.

EDUCATIONAL BACKGROUND

- Smt. Diwaliben Harji Bhai Gondaliya College of BCA and IT — BCA, Surat, Gujarat, CGPA: 8.23 (Oct 2021 – Apr 2024)
- J. P. Dawar Institute of Information Science and Technology — MSc ICT, CGPA: 7.77, Surat, Gujarat (Aug 2024 – Jul 2026)
